

DUROC GODALL

*A SWINE AS IN THE PAST
FOR PEOPLE TODAY*

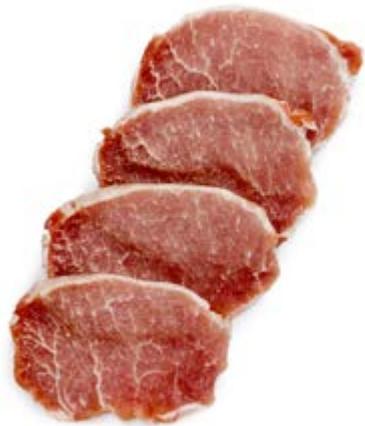

QUALITY WITH TOTAL GUARANTEE

Duroc Godall is a product that emerged from the union of efforts of two leading companies.

Sergal is a company specialised in swine genetics, on the cutting edge of the sector. We work with contrasted and high-quality products, exclusively selecting each of our boars.

Granja Godall is a company focused on the closed circuit production (cereal crops, feed manufacturing, swine breeding and fattening, cold and fresh meat manufacturing), with a clear commitment to obtain the highest-quality meat.

MORE SMELL, MORE TASTE, MORE TENDER MEAT

Terminal sire lines Duroc Godall
Maternal line Landrace x Large White
Genetic line intended for ecologic swine
High-quality, non-exudative meat
High intramuscular fat infiltration
Low back fat content
Low dispersion in the product
A very exclusive and differentiated product

With a quality diet, based on cereals, you can obtain meat with healthy and monounsaturated fat (with linoleic and linolenic acids), prolonging meat durability.
